Thursday, 15 March 2012 02:20 -

In a 3-days long event (ended on 9th March 2012) hosted by Florida Institute of Technology - USA, Professors Carmelo Bastos and Fernando Buarque and the MSc Candidate Marcos Oliveira proudly and successfully presented their works developed at the Computational Intelligence Research Group (CIRG) of University of Pernambuco. Moreover, Prof. Fernando Buarque chaired a Special Session on the Workshop. Also it is noteworthy that some talks held after the conference resulted in likely future partnership, projects and exchange of postgraduate students of ours.
